THE ORCHARDS

EMPOWERING LIVES THROUGH COMMUNITY

Welcome to The Orchards

The Orchards is a site in Billinge, dedicated to providing flexible supported living, where people can enjoy both independence and a strong sense of community.

At The Orchards, we offer more than just a place to live, we provide a welcoming home where everyone feels included, supported, and valued. With four shared houses, each featuring six en-suite bedrooms, residents can enjoy the comfort of their own space while also benefiting from the advantages of shared living.

Life at The Orchards is about providing people with modern, comfortable homes as well as the spaces they need to spend time with friends, engage in activities or have a quiet moment to themselves.

Being part of the Billinge community also means easy access to local shops, cafés, restaurants, a library, and health services, so residents can stay connected and involved in village life. There is also regular public transport to take you to Wigan town centre.

We are a nurturing haven, dedicated to fostering growth, learning and a sense of community, empowering the people we support to lead fulfilling lives.

Our homes at The Orchards provide high-quality, person-centred placements for individuals with a range of needs, from learning disabilities to mental health support requirements.

We create an environment that empowers people to develop independence, build confidence, and achieve meaningful outcomes.

By focusing on skills development, community participation, and tailored support, we help individuals lead fuller and more fulfilling lives, reducing the risks of loneliness and social isolation.

Our approach is flexible, responsive, and designed to promote long-term wellbeing, while delivering value through improved independence and reduced reliance on high-cost services.

We focus on supporting each person on their pathway to independent living by offering support in key areas such as:

- maintaining a habitable home
- support with finances and budgeting
- emotional and physical wellbeing
- education, training and employment opportunities
- connecting with the local community
- reducing social isolation

together we are
nugent

At Nugent, our vision is rooted in compassion, respect, and innovation. Since 1881, we have been a beacon of hope and strength for individuals, families, and communities in need. Our work continues to evolve, guided by our commitment to meeting the challenges of an ever-changing world.

Our vision is clear: **together, provide a lifelong pathway of support for individuals and communities in need.** This vision underpins everything we do, from supporting children and families to empowering adults and strengthening communities across the North West and beyond.

Nugent's five strategic priorities shape our work today and into the future. We are committed to providing:

- **Accommodation** – Providing safe spaces for those in need
- **Employability** – Empowering individuals with the skills and resources needed to secure employment and build sustainable livelihoods
- **Poverty Alleviation** – Seeking to address all forms of poverty, such as food, hygiene, and financial crisis
- **Quality of Life** – Strengthen the ability of the people we support and our colleagues to sustain a healthy quality of life
- **Making Memories** – Creating opportunities for individuals and families to experience joy, break cycles of adversity and create lasting memories

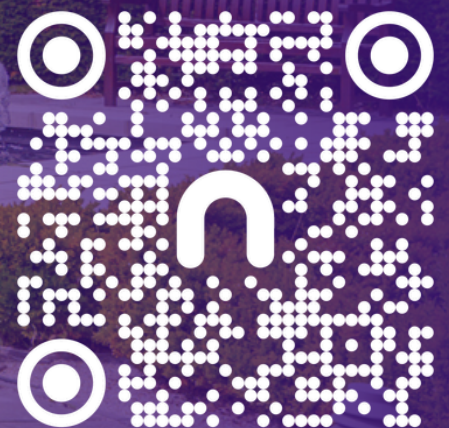

As one of the North West's longest-serving social care charities, Nugent is dedicated to working in partnership with local authorities, businesses, and community groups to drive positive change. By combining our experience with a forward-looking approach, we continue to adapt our services, ensuring we remain a vital part of the social care landscape.

Together, we are building stronger, fairer, and more compassionate communities, one pathway of support at a time.
